FAIR TRADING COMMISSION

CAREER OPPORTUNITIES

The Fair Trading Commission is seeking to recruit individuals to fill the positions of Electricity Analyst, Research Officer and Legal Officer on a short term basis.

## 1. Electricity Analyst

The Electricity Analyst will be required to:

- Assist with monitoring and assessing the technical and financial operations of the regulated electric utility;
- Assist with analysis of the performance of the regulated electric utility; and
- Assist with the development and or review of plans for projects of the regulated electric utility relating to the country's transition to 100% renewable energy utilization by 2030.

The successful candidate should:

- Hold a postgraduate qualification in economics, renewable energy management, electrical or mechanical engineering, or other relevant discipline;
  
- Be familiar with regulatory policies and procedures and have knowledge of developments within the renewable energy sector;
  
- Have knowledge of renewable energy technologies;  
Knowledge of energy economics, experience gained in a regulatory agency or experience working within an electricity service provider would be an asset.

The successful candidate will report to the Director of Utility Regulation.

## 2. Research Officer &ndash; Utility Regulation

The ideal candidate must be able to provide evidence of his/her ability to write extensive research papers, to use Microsoft Office and other statistical packages for detailed data analysis.

- The Research Officer will be required to:
  - Conduct qualitative and quantitative research on matters related to the regulated electric utility and other electricity sector issues that will impact the operations of the utility; and
  - Prepare and present analytical reports detailing research findings.

The successful candidate should:

- Hold an undergraduate degree in either a social sciences or applied sciences discipline;
- Have a minimum of three years&rsquo; relevant work experience.

Experience in modelling would be an asset.

The successful candidate will report to the Director of Utility Regulation.

### 3. Legal Officer

The successful candidate must be a practising Attorney-at-Law of at least three years' call.

The Legal Officer will be required to:

- Assist in providing regulatory, legal and best market practice advice and guidance to the Commission and staff in energy matters, including renewable energy;
- Draft, review, negotiate and conclude a range of documentation, including contracts;
- Assist in the research and drafting of Commission decisions relevant to the determination of applications submitted by the regulated electric utility and others in the energy sector;
- Work as part of a greater team on cross-departmental projects, strategic projects and key regulatory initiatives;
- Conduct extensive legal research to inform policy positions and regulatory process and procedure;
- Prepare legal opinions relating to issues of law and regulation in the energy sector;

Experience in a regulatory or compliance environment would be an asset.

The successful candidate will report to the General Legal Counsel.

All applicants for the above posts should:-

- Be results-oriented, decisive, innovative, have strong analytical, organisational, interpersonal and communication skills; be able to demonstrate use of initiative and function in a fast paced environment.

Interested persons are invited to submit applications, accompanied by curriculum vitae and two recent testimonials, to:

The Chief Executive Officer

Fair Trading Commission

Good Hope, Green Hill
